

Cardiovascular Genetic Testing

AdventHealth Heart,
Lung & Vascular Institute

If you were at risk for heart or vascular disease, wouldn't you want to know? Genetic testing gives you and your provider important information about you and your family's health so that you can take steps to reduce your risks. Genetics and genomics are the cornerstones of personalized health care and the future of medicine.

AdventHealth

Expert Care Navigation

Our dedicated nurse navigators are here to assist you and your family. Nurse navigators:

- Explain the process and answer questions
- Guide you and your family through the process
- Provide contact information for specialists
- Provide specialty referral assistance
- Assist with referral to adult or pediatric specialist for hereditary cardiovascular conditions
- Act as the hub of communication connecting you and your doctor to expert care
